Physiotherapy and Rehabilitation

01. CPMs

A

Knee CPM

- The knee CPM offers a full range of movement options and controls, set by using the handset.
- Hyperextension (-10°) to full Flexion (120°) for a complete range of treatment.
- Alongside your standard controls, this CPM offers additional functionality such as warm-up function, 20 pre-set programs, session timing and ROM by-pass. Using a USB accessory and software, this option can also be used to capture individual patient session information.
- Maximum user weight 135kg.

B

Shoulder CPM

- Provides post-operative passive range of motion.
- Programmable hand control allows pre-programming twelve different protocols.
- Breaks down for convenient transportation; also includes a carrying case for detachable parts.
- The Anatomical Shoulder CPM Machine is ideal choice for hospital and home shoulder rehabilitation.

C

Hand and Wrist CPM

- Flexor and extensor tenolysis.
- Aponeurectomies for Dupuytren's disease.
- Rheumatoid/neurological or post-burn stiffness.
- Capsulotomies, arthrolysis and tenolysis for post-traumatic stiffness of MCP, PIP and DIP joints.

02. Traction Table

- Eight traction modes.
- Pulling capacity 0-90 kg.
- Pulling speed selectable from five pre-set values 1:1,1:2,1:3,1:4,1:6 and 1:8 according to the patient symptoms.
- Option to buy the table without the traction machine.

03.

Durapak (Hot/Cold)

- Microwave for hot pack effect or Freeze it for Cold pack.
- Made of Special Gel that is anti-spill.

04.

CanDo Latex-Free 100-Yard Exercise Band

- Comes in five different colours which each has different resistance.
- Wide range of available exercise to help with the healing process.
- Comes in a special economic pack or separately packed units if needed.

05. Elastic Tape (All Colors)

- Wide range of colours available.
- Different American, German and Chinese high-quality and durable products.
- Anti-allergic material for smooth healing process.
- Waterproof for showers.

06. Digi-Flex

- Develop individual finger strength.
- Good home rehabilitation for stroke patients, post-operative, sport injuries and other conditions that requires strengthening.
- Comes in 8 different strengths depending on patients' power.
- Easy to carry anywhere.

07. TENS Portable Machines

A

TENS Drug Free Pain Relief

- Easily adjust your level of pain relief using large control knobs and big buttons.
- Double the relief with 2 independent channels.

B

TENS Flexistim

- Flexistim is a powerful and versatile multitherapy device, combining TENS, EMS, IFT and Microcurrent treatment into one single unit.
- Four different treatment modes enable Flexistim to enhance and accelerate healing and provide pain relief for both Hospital and Home Healthcare Environments.

C

C-TENS Ova Plus for Menstrual Pain

- Specifically designed and clinically proven to treat menstrual cramps commonly known as period pain.
- Convenient rechargeable battery via USB.
- Can be carried in bag.

08.

TENS Electrodes

- Adhesive electrodes which maintain elasticity for more than 12 sessions per patient.
- Packing has a sealer to store the electrodes after use.
- Comes in different shapes and sizes depending on need.
- Economic price for a very good product.

09.

Sonicator Plus 930, 2 Channel Combination Unit

- Easy-to-use membrane panel is designed to assist clinician with quick setup.
- 2 channel therapy includes ultrasound probe.
- Therapeutic ultrasound incorporates three popular stimulation waveforms: interferential, premodulated, and medium frequency.

Hospital Furniture

01. VIP Hospital Beds

- The only bed in market that provide full range of sittings.
- Bed height can be reached up to only 40 cm above ground.
- Provides the patient a true sense ease of dependency.
- It suits all kind of patients.
- Comes with mattress.
- Fire resistance.
- Customizable upon request.
- Suitable for homecare.

02.

Hospital Beds

- ICU Beds with 7,5 and 3 functions upon request.
- Normal ward beds.
- Orthopaedic beds.
- Baby cribs and cottages.
- All models are customizable based on need.
- Different models and materials such as ABS and Steel.

03. Partitions

- Fully Customizable.
- Design your own partition with pictures, colours, heights and lengths.
- Surface withstand disinfectants.

- Quick and easy to fold.
- Chose the number of folds from 3 to 12.
- Can print pictures on it for paediatric wards.

04. Bedside Cabinets

- Wide range of bedside cabinet products with different material based on request (ABS, Wood, Steel, Aluminium, etc.).
- Different models available.
- Different colours depending on need.
- Includes castors with breaks.
- Can be customized upon request (numbers of drawers, accessories, etc.).

05. Closets

- Various collections of closets for patient room.
- Wall fixation device - anti-tilting.
- Different colours.
- Customizable upon request.

06.

Overbed Table

- Wide range of overbed table products with different material based on request (ABS, Wood, Steel, Aluminium, etc.).
- Different models available.
- Different colours depending on need.
- Includes castors with breaks.
- Height can be customized upon request.

07.

VIP Transfer Chair

- Metallic structure in steel tube.
- Seating and backrest in polyurethane foam.
- Fire resistance.
- Seating height: 47 cm - maximum patient weight: 135kg.
- Different colours available.
- French made.

08.

Stretcher Trolleys

- Wide collection of stretchers.
- Operating room, emergency department, shower trolley.
- Adjustable heights.
- Up to 8 poles IV stands.
- Trendelenburg/Anti-Trendelenburg assisted.
- Comes with mattress.

09. Dynamic Mattresses

- Wide range from air mattress to dynamic system mattress with digital pump.
- Dynamic pump for pressure ulcers with cycle.
- Cycle alternation every 10-12 minutes.
- UK made.

10. Operation Room Tables

- Remote panel & column panel.
- Power supply.
- Fixed parts of infusion frame.
- Wash basin hole.
- Hydraulic system.
- Fire resistance.

11.

Operation Room Lights

- Full range of Operation Room lightening solutions.
- Providing spare parts to any model as needed.
- Fully customizable for the hospital need.

12. Medical and Anaesthesia Trolleys

- Aluminium and steel structure.
- ABS upper top with extended up rims on three sides.
- Colours: red, blue, purple, white, and light green.
- Fully customizable based on request on number of drawers, shelves and side arms.
- Suitable for the medical and anaesthesia.
- Can be requested with lock system as needed.

13.

IV Stands

- Stainless steel structure or ABS.
- 2-4 hooks.
- Adjustable height.
- Heavy duty.
- Models suited for ICU, OR and ward.
- ABS comes with choice of different colours.

14.

Customizable Workstations

- Key locking tech bay.
- Lightweight construction.
- Stable Manoeuvrability.
- Easy Height Adjustment.
- Antimicrobial Surfaces.
- Fully customizable based on need.

Home Care

01.

Fall Cushions

- Cushions that are set up at the side of the bed.
- Protect against falls.
- Fire resistance.
- Anti-allergic.

02.

Wheelchairs

- Various models of wheelchairs.
- Electric models available.
- Foldable models upon request.
- Fire resistance.

03. Tube Holders

- Choice for nasogastric tube, endotracheal tube, tracheostomy and foley catheter.
- Very light.
- Prevents pressure ulcers for long term patients.
- Cotton material.
- Easily used.

04. Compression Wraps

- Cold compression wraps.
- Combines compression with cold therapy.
- Used with water.
- Sport injuries, pain and home rehab.
- Controls swelling, edema and pain.
- Different models for each area: shoulder, neck, back, wrist, elbow, knee and foot.

05.

DVT Pump Preventor

- 2 independent cuffs.
- 5 modes.
- Rechargeable battery.
- Prevention of DVT by controlled pressure pump mechanism.

06.

Heated Control Blankets

- Various sizes and models.
- Can be cleaned with detachable remote.
- Up to 4 temperature settings.
- For large blankets 2 controls for each individual.
- Safety system for overheating.

07.

Manicure and Pedicure

- Clockwise and counter clockwise rotation.
- Additional nail polishing attachment with 2 smoothing and 2 polishing rollers.
- Care and treatment of nails, cuticles and slight calluses.
- 3 speed levels for individual needs of nail care.
- Various models with LED light.

08. Home Scales

- Bluetooth smart transfer of data.
- Stores up to 240 measurements in memory.
- Automatic detection of users.
- Various models and colours to fit the home ambient.

Blood Bank Products

01.

Blood Donor Chairs

- Comfortable for donation.
- 180 degree adjustable.
- Leg raised functionality.
- Fire resistance.
- Various colours and models.

02.

Blood Collection Monitor

- Automatic counter balancing.
- Gentle & smooth motorized clamping of blood bag tube prevents damage to the live blood cells.
- Audio visual alarm.
- Visual indication & displays.
- Supplied with shoulder carry bag.

03. Blood Stripper

- Motorized metallic roller & one free roller for smooth tube stripping.
- Designed for left / right hand operation.
- Suitable for all commercially available blood bags.
- Auto stop feature for overload protection.

04. Tube Sealer

- Keep the blood bag system completely sterile by sealing.
- Senses the blood bag tube for automatic sealing process.
- Visual indications (ready to seal, seal process and power).
- Easy to remove sealing head cap for quick cleaning.
- Option to come with a portable sealer.

05. Water Bath

- Multipurpose water bath with adjustable double line six holes to hold different size samples.
- Microprocessor control with timing function.
- Audible and visual alarm for over temperature.

06. Laboratory Cabinets

- Cold, Hot, Freeze and humidity chambers.
- Various sizes and models.
- Accurate microprocessors.
- Adjustable trays.
- Electrical circuit breaker.
- Sensor failure alarm.
- Touch screen.
- Powerful fan monitor system.

07.

Centrifuges

- Electronic brake for immediate stop on lid opening for user safety.
- Microprocessor controlled for greater efficiency – Next gen design with digital display.
- Various models and sizes.
- Microprocessor controlled for greater efficiency – Next gen design with digital display.
- Save time by doing quick runs by simple opening and closing the lid.

08. Vein Finder

- Different models available.
- Hands free option.
- Point and click.
- Customizable models show depth of veins for obese patients.
- Used for geriatric and paediatric patients.

Accessories and Spare Parts

01.

Digital Stethoscopes

- Cardiopulmonary auscultation modes between lungs and heart.
- ANR technology.
- Volume control.
- 24X sound amplification.
- Can be used on light clothes.
- OLED display.
- Inbuilt record and playable system up to 6 seconds.
- Can send the record by bluetooth.
- Chargeable by USB in less than 4 hours.
- Can be used up to 16 hours continuously.

- Radiation free.
- ANR technology.
- Option between speaker and through headphones.
- Can be used on light clothes.
- Sound amplification up to 20X.

02. Digital Fetal Auscultator

03. Endoscopic Spare Parts

- Providing endoscopic parts based on model number.
- All models are available.
- Fast delivery.
- Wires, electrical parts and endoscopic heads.

04. General Spare Parts

- Providing wide range of spare parts.
- No need to buy new products.
- Providing the part in accordance to model number.
- Ranging from pulse oximetry, ultrasound machines, CT scans, MRIs and operation room spare parts.

05.

ECG Electrodes

- Normal ECG, neonatal ECG and paediatric.
- High-quality medical pressure sensitive gel.
- Good adhesive properties, it will not easy become dry under long shelf time.

06.

Electrosurgical Pads

- Match with electrosurgical generator, radio frequency generator and other high frequency equipment.
- Foam and Non-woven fabric backing materials make the adherence more comfortable.
- The conductive gel of safety design covers over the edge of the metal foil to make safer.
- Various sizes.

Foot Care

01.

Foot Air Cast

- Lower limb and foot brace for immobilisation.
- Allows the adjustment for optimal fit.
- High level of wearing comfort.
- Various sizes available.
- Adjustable and removable toe protection.

02. Pressure Off-Loading Boots

- Various models and sizes.
- Choice to off load pressure from heel, toes depending on need.
- The choice for diabetic foot offloading.
- Promotes healing of diabetic foot ulcers by removing the entire pressure from the area.

03.

Neurological Foot Braces

- Dynamic foot lifting brace with innovative magnetic closure.
- Flaccid and (moderate - severe) spastic foot flexor paresis.
- Lumbar nerve root damage.
- Quadriceps weakness.

04. Ankle Braces

- Dynamic mobilisation and stabilization.
- Can be easily dismantled in three steps in line with the course of therapy.
- QR code in the product packaging gives you access to therapy exercises.
- Post-operative foot & ankle therapy.

Clinical Education Manikins

01. CPR Manikins

- Choice between full body and half body (little Anne).
- Assess the performance of the attempt.
- Realistic anatomy including head tilt, chin lift, compression depth, compression force and chest rise.
- Optional configuration:
 - a. AED Training.
 - b. Airway Head.
 - c. Wireless SkillReporter Software for accurate feedback.

- Infant model.
- 3-9 months model.
- 1-3 years old model.
- Lifelike anatomical landmarks such as nipples, xiphoid process and sub-sternal notch.
- Easy to replace mouth/nose pieces after wear and tear effect to replace instead of buying new model.
- Disposable airways with uni-directional valves.
- Soft carrying bag.

02. Child CPR Manikins

03.

Injectable Training Arm

- Choice between connecting it to a manikin or providing it as a separate model.
- Realistic vinyl skin and latex veins so the skin rolls as you palpate the vein.
- Realistic flashback occurs with proper insertion.
- The arm pivots at the elbow for easy accessibility to antecubital fossa, along the forearm, and at the back of the hand.

04.

Surgical Skills Trainer

- Training of basic operation skills.
- A suturing skin pad can be replaced.

05.

PICC Line Training Set

- The only available teaching model for Peripherally Inserted Central Catheter (PICC) insertion.
- Anatomically correct superior vena cava, subclavian, jugular, median basilic, basilic and cephalic veins.
- The moveable chin simulates the occlusion of the jugular vein which can prevent the PICC from taking this path.
- Palpable ribs permit the practice of measuring proper catheter length from the insertion site to the second or third intercostal space.

- Replaceable spinal cord insertion with skin layer, subcutaneous layer, connective tissue, and lumbar vertebrae.
- Anatomic features include iliac crests, lumbar vertebrae L2 – L5, ligamentum flavum, epidural space, and dura.
- Lifelike needle resistance, including pops when needle traverses ligamentum flavum and dura.
- Self-healing skin that allows 15 uses with an 18-gauge needle and 25 uses with a 22-gauge needle before replacement is necessary.
- Practice procedure in the left lateral decubitus or sitting position.

06.

Lumbar Puncture Training Set

07. Full Body X-Ray Doll

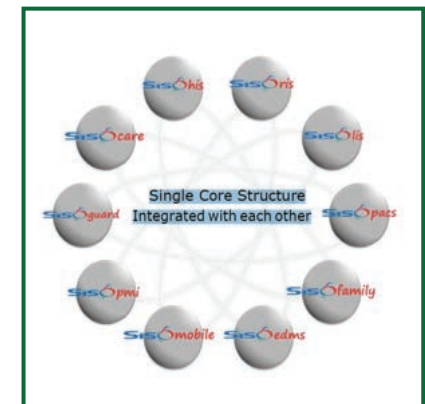

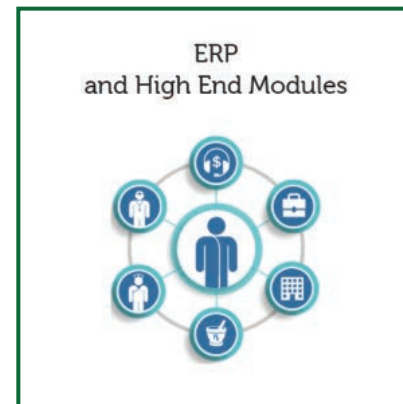

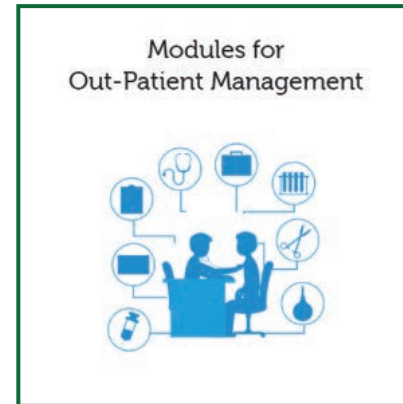

- Training opportunities for positioning and alignment techniques in projection radiography.
- It should be part of the basic equipment of any radiographic school.
- All joints are moveably mounted allow positioning in all normal x-ray positions.
- Depending on the individual phantom it may have some pathologies, outer shape may differ depending on size of the skeleton.
- This phantom is only sold against proof of medical use.

Software Solutions

- Official partnership with Sisoft serving more than 4 countries and 100 hospitals.
- The system of choice for Maldives and Cyprus hospitals.
- Web/Cloud based clinics and hospitals.
- More than 10 modules for every function.
- Paperless environment.
- Operating System Independence (Windows, Mac, Unix, Linux, Solaris).
- Automatic Operations with Scheduled Tasks (Collective Invoice, Health-Net, SMS, Statistic Delivery).
- Multi Language Support (English, Arabic, Spanish, Turkish, French, Azeri, Russian).
- Operation with SSL.
- Single Core Structure Integrated with each other.
- ORACLE, HIT and HIMSS certificates.
